

## **The British Ragdoll Cat Club 7<sup>th</sup> Championship show 10<sup>th</sup> January 2009**

I should like to thank the show management and the committee for the invitation to judge at their friendly breed show. A spacious venue, with lots of atmosphere. I am most grateful to Shirley Talboys (Shandatal Birmans) who came especially to steward for me, with her usual quiet expertise - and on such a cold day too! Thank you Shirley, I shall look forward to the next time. Thanks also to Joanne Lamont, my second steward on the day. Joanne I hoped you enjoyed the learning curve.

### ***Seal Bi-Colour Ragdoll Kitten Male***

1<sup>st</sup> Sabine's **SILKIESTAR I'MSOHANDSOME** (66 31) M 23.05.2008

An 8 and a half month old seal bi-colour Ragdoll kitten of good type, he is long in the body, muscular and well grown. Broad head with flat plane, very good width between the medium seal brown ears. Ears showing the desired slight forward tilt, they are well furnished and rounded at the tips. The large well opened and expressive medium blue eyes are set well apart in an oblique aperture. The bite is level the chin is firm. Rounded well developed muzzle the cheeks needing to develop. A medium length rather straight wide nose, tending to dominate the facial features at present, the tip is not retrouse. The mask has a slightly unbalanced inverted 'V' of white beginning low down on the forehead, covering the nose, whisker pads and chin. The remainder of the mask is seal brown. Medium length legs of substantial boning and strong tufted paws, The paws and legs are white, the back legs are white to the level of the underbody. Long seal brown well furnished tail, tapering towards the tip, a little brindled on the upper surface at present. The dense and soft predominately beige body coat is medium in length, a short neck ruff developing. The bib chest and entire underbody is white, there is a pale brown belly spot. A nicely presented exhibit, not happy to be handled today, rather vocal and nervous whilst out of his pen.

2<sup>nd</sup> Edmunds **HILDREK CHANDLER** (66 31) M 10.05.2008

A large well boned seal bi-colour Ragdoll kitten rather Persian in type, he is 8 months old. Broad head, the forehead is rounded, not a flat plane. Good width between the seal brown ears, these need to be a little larger for balance, they do however display the desired slight forward tilt. Large rather bold and rounded pale blue eyes, not oblique in their set. The body is long and muscular, heavy in set with a short neck. The bite is level and the chin is firm, Chandler has a rounded well developed muzzle, the nose leather is pink. Medium length nose, only a barely perceptible dip, the tip is just retrouse. The mask has a balanced inverted 'V' of white beginning at the middle of the forehead, covering the nose and whisker pads but unfortunately not the chin, this is seal brown. The remainder of the mask is seal brown. The substantially boned legs are medium in length, large well tufted paws. The bib chest and underbody is white, there is a large seal brown belly spot. The paws and legs are white, the back legs are white to the level of the underbody. Predominately beige body coat, this is quite long, full neck and chest ruff and knickerbockers. The coat

presentation would benefit from more careful show preparation, temperament is good.

***AC Bi-Colour Ragdoll Kitten Female***

1<sup>st</sup> & BOB Lynch **MAGISRAGIS PERSEPHONE** (66 31) F 04.10.2008

Just old enough to be at the show today, and being very brave about it on such a cold day and in a big noisy hall. A seal bicolour Ragdoll kitten of excellent type, she is long bodied and of a very good weight and size for her age. Broad head with flat plane, good width between the medium seal brown ears. These are well furnished and when she is relaxed shows the desired slight forward tilt. Cheeks still developing, the muzzle is strong and rounded. Level bite. Medium length nose, when viewed in profile shows the required gentle dip, the nose is slightly retracted at the tip. The mask shows a well balanced inverted 'V' of white starting on the forehead, extending down and covering the nose, whisker pads and chin. The remainder of the mask is seal brown. Expressive eyes of a good blue, today the right eye appears lazy, when out of her pen however all seems well (confirmed by Duty Vet). The eyes are set well apart, and are slightly oblique in set. Medium length legs and round white tufted paws. The white on the front right leg not quite reaching to the top, the left front leg is completely white. White to the back legs is level to the underbody. Predominately beige kitten soft body coat, with small areas of white in middle of the back. White underbody, bib and chest. Long tapering and fairly well furnished seal brown tail to balance her young frame. Excellent temperament, dear little kitten she is so nicely presented.

***Seal colourpointed/Mitted Kitten (inc Tabby) Male***

1<sup>st</sup> & BoB Cook's **HIGHVIEW BACKCHAT** (66) M 11.04.2008

Almost 9 months old seal colourpointed Ragdoll kitten of quality and wonderful balance. Long in the body and muscular, with a broad chest and short strong neck. The head is broad with flat plane, there is good width between the well furnished rich seal brown ears. The bite is level, firm chin and well developed muzzle. The nose is medium in length and when viewed in profile shows the desired gentle dip, nose is retracted at the tip. The mask is a good rich seal brown and covers his well developed cheeks. Medium size ears showing a slight forward tilt, these are set wide and well furnished. Expressive large deep blue eyes, placed well apart and set in an oblique aperture. Medium length legs of substantial boning, the brown paws are large and well tufted. Points colouring to the legs seal brown. The seal brown tail is long and bushy, this tapers slightly towards the tip. Beige body coat, this is dense and silky in texture and has been well prepared. Well groomed clear pale beige underbody. Good length neck and chest ruff and full knickerbockers. Fabulous temperament, first class presentation and a pleasure to handle. A most promising exhibit.

2<sup>nd</sup> Sabine's **SILKIESTAR LOGAN** (66w) M 20.05.2008

A 7 and a half month old seal mitted Ragdoll kitten of quite good type, well boned and of a good weight for his age. The head is broad with a flat plane, not domed. Well placed medium sized seal brown ears, rounded at the tips and showing the desired slight forward tilt. The bite is level, firm chin which should be completely white, there is however seal brown colouring on the outer edges of the chin. Large slightly oblique well opened deep blue eyes, they are set well apart. Fairly well developed cheeks and a rounded muzzle, the mask is seal brown. Medium length nose, showing a gentle dip it is straight at the tip. Medium length substantially boned legs, points colouring seal brown. Pure white mittens to front paws, the back legs are white to level of underbody. There is a small seal spot on the back of the left leg. Good length bushy brown tail to balance, this tapers towards the tip. Some brindling on the upper surface of the tail. Clean well prepared beige body coat, this is silky in texture and medium in length. Ruff and knickerbockers developing. The bib, chest and entire underbody is white. Excellent gentle show temperament.

*Seal colourpointed/Mitted Kitten (inc Tabby) Female* - A class of quality exhibits

1<sup>st</sup> Adams & Thompson's **RAGADEE TIA MARIA** (66) F 28.04.2008

8 and a half months old seal colourpointed kitten of very good type. She is long bodied muscular and very well grown. Broad head with flat plane, she has very good width between the medium seal brown ears. The ears are set wide and show a slight forward tilt, they are well furnished and rounded at the tips. Full seal brown mask, this covers her well developed cheeks. Strong rounded muzzle, level bite and firm chin. A gentle dip to her medium length nose, this is slightly retrouse at the tip. Slightly oblique well opened medium blue eyes, these are set well apart, feminine expression. Sound seal brown points colouring to the substantially boned legs, these are medium in length. Large velvety brown round paws. Seal brown tail of a good length to balance the body, slightly tapering towards the tip. Dense and silky beige body coat, paler beige underbody. Good length neck ruff and knickerbockers. Beautifully presented and possessing the typical outgoing gentle Ragdoll nature.

2<sup>nd</sup> J & R Lamont's **CATTITUDE DÉJÀ VU** (66) F 17.06.2008

A seal colourpointed female Ragdoll who is 7 months old and is an excellent size for her age. The body is long and muscular, well boned and of a good weight. The head is broad, with flat plane it is not domed. Good width between medium size seal brown ears, these are well furnished and display the desired slight forward tilt. Fairly wide still developing cheeks, the muzzle is strong. Firm chin, level bite the nose leather is seal brown. Medium length nose, in profile this shows a gentle dip and is slightly retrouse at the tip. Large well opened medium blue eyes, these are slightly oblique in their set. Even dark seal points colouring to the medium length well boned legs and large round well tufted paws. The long and bushy seal brown tail tapers towards the tip, just a little brindled today. Silky beige body coat, this is quite long and open today, although has been well

prepared. Clear pale beige underbody, neck ruff and knickerbockers. Excellent gentle show temperament, I did like her 'look'

3<sup>rd</sup> Roy's **PETALPAWS TIGERLILY** (66t) F 30.06.2008

A 6 month old seal tabby pointed Ragdoll kitten of very good type. Another well grown long bodied muscular kitten of excellent proportions. A strong broad head with flat plane. Very good width between the ears, which today I felt needed to be a little larger to balance her strong features. Ears set wide, well furnished and rounded at the tips. Large well opened eyes, set well apart of a clear pale blue. The eyes are slightly oblique in set. Strong rounded muzzle, level bite and firm chin. Clear 'M' to the forehead, the pleasing tabby mask covers the developing cheeks. The nose is medium in length has a gentle dip to the profile and is straight at the tip. Strong medium length legs, front legs showing clearly defined tabby markings. Long bushy seal brown tail, showing several varied rings underneath. The silky and dense beige body coat is medium in length, medium neck ruff and knickerbockers developing. Paler beige underbody which would benefit from more grooming. A delightful friendly nature to this exhibit.

4<sup>th</sup> Feltham's **MONTANTE ORCHID** (66) F 25.04.2008

An 8 and a half month old seal colourpointed Ragdoll female of good type, she is long bodied muscular and fairly well grown. The head is broad, with a flat plane, fair width between the seal brown ears. The ears are medium in size and are well furnished. Cheeks developing nicely, the muzzle is rounded. The nose could be a little longer for balance, profile shows a gentle dip only just retrousse at the tip. The chin is strong, the bite level. The face mask is a dense seal brown. Obliquely set medium blue eyes, they are set well apart and generate good expression. Medium length legs of substantial boning, the seal brown points colouring rather uneven today. Large round well tufted paws. The tail is seal brown and reaches the shoulders, it is well furnished and tapers slightly towards the tip. Minimal brindling to the surface of tail. The silky body coat is beige in colour and medium in length, paler beige shade to the underbody. Two large brown belly spots. The neck ruff and knickerbockers are developing nicely. Well presented and possessing a gentle temperament.

***AC or Pattern Novice Adult Male or Female - 10 entered***

1<sup>st</sup> Lynch **CHESAWOOD BURLINGTONBERTIE** (66) M 15.03.2008

A 10 months old seal colourpointed young man of very good boning, size and weight. The head is broad with flat plane, good width between the seal brown ears. The ears are medium in size, well furnished and show a slight forward tilt. Well developed muzzle, cheeks developing. Seal brown nose leather, the bite is level chin firm. Large obliquely set deep blue eyes, they are set well apart. Medium length nose when viewed in profile shows a slightly retrousse tip. Substantially boned medium length legs, seal brown points colouring just a little uneven at present. Good length well furnished seal brown tail, this tapers towards the tip. Beige body coat, this is a good length and has been well

prepared. The coat is silky in texture, ruff and knickerbockers developing. A most promising exhibit, today displaying excellent balance for one so young. Bertie has a delightful friendly nature.

2<sup>nd</sup> Morris **MONTANTE PURDY** F (66aw) F 12.07.2007

A 16 month old blue mitted Ragdoll female of excellent type. She is long in the body and muscular. Broad head with flat plane, not domed. Well developed cheeks and muzzle. Firm chin and a level bite. Expressive well opened blue eyes, they are set well apart and slightly oblique in set. The nose is medium in length, profile shows a gentle dip and it is slightly retrousse at the tip. The bite is level, firm pure white chin. Medium length substantially boned legs, uniform bluish grey points colouring to the legs. Purdy has pure white mittens to front paws, the back legs are white to level of underbody. The bib, chest and entire underbody is white. The body coat is bluish white, rather dark across the shoulders but still generating good contrasts. Bluish grey well furnished tail to balance her body. Expertly presented lady, possessing a delightful temperament.

3<sup>rd</sup> Hassett **HAPPYTYME MISS BEHAVING** (66 31a) F 03.03.2008

Well grown blue bi-colour young lady. Lovely type, excellent temperament and presentation.

***AC or Pattern Senior Adult Male or Female***

1<sup>st</sup> Haworth **GR CH DIZZIPAWS BRUCE** (66) M 02.08.2006

A 2 and a half year old seal colourpointed Ragdoll of excellent type. A well boned and masculine exhibit, with a long and muscular body. He is heavy in set, with a short neck and broad chest. Broad head with excellent flat plane, good width between the rich seal brown ears. The ears are medium in size, set wide and showing the desired slight forward tilt. The eyes are large they are medium blue and oblique in their set. The nose is medium in length, when viewed in profile shows a gentle dip and is just retrousse at the tip. Good firm chin, level bite the nose leather is seal brown. Rich seal brown mask covering the well developed cheeks and rounded muzzle. Substantial boning to the legs, large rich seal brown well tufted round paws. Points colouring to the legs a rich uniform dark velvet brown. Well furnished seal brown tail slightly tapering towards the tip, the length balancing the body. Medium length dense beige body coat, slightly paler beige underbody. Full length neck ruff and knickerbockers. As ever the perfect gentleman, beautifully presented for the show.

2<sup>nd</sup> Fitzpatrick **CH EMERISLE EMILIO BANDITO** (66 31) M 08.04.2005

An enormous seal bi-colour male of very good type, he is 3years 9 months old. The body is long and muscular, he is heavy set with a broad chest. Broad head with flat plane, excellent width between the seal brown ears. Ears are well furnished. They are medium in size and show the desired slight forward tilt. Well developed cheeks, good strong rounded muzzle, level bite and firm chin. The mask has a balanced inverted 'V' of white starting on the forehead and

covering the nose, whisker pads and chin. The remainder of the mask is rich seal brown. Fabulous deep blue eyes, set wide and slightly oblique in set. Medium length nose, shows a gentle dip in profile it is slightly retrousse at the tip. Medium length well boned legs, the legs are white to the level of underbody. There is a small seal spot on the right leg. The bib chest and entire underbody is white. Predominantly dark beige body coat, this is dense and silky to the touch. Full neck ruff and knickerbockers. Seal brown well furnished tail to balance, well furnished and tapering towards the tip. Excellent temperament.

3<sup>rd</sup> Fitten's **CH FINEARTE ZEPHYR ROSE** (66 31a) F 17.08.2006  
A 2 and a half year old blue bi-colour Ragdoll of very good type and size.

***AC or Pattern Senior Adult Male or Female***

1<sup>st</sup> Wilson's **DONJELAMI MOONSHINE BABE** (66 31) F 10.05.2003  
A most attractive mature 4 years 8 months old seal bi-colour female of very good type, shown in excellent condition. Broad head with flat plane, not domed, excellent width between her rich seal brown ears. Level bite and strong chin, the nose leather is pink. The mask has a balanced inverted 'V' of white starting at the forehead and covering the nose, whisker pads and chin. The remainder of the mask is seal brown, this is connected to the ears by tracings. Expressive medium blue eyes, set wide and slightly oblique in set. Medium length legs with large round tufted paws. The front and back legs are white to level of underbody. The body coat is predominately beige with a few evenly distributed patches of white. The bib, chest and underbody is pure white. Good length neck ruff and knickerbockers. The seal brown tail is a good balanced length, just a fraction sparse today. Beautifully presented exhibit, with a gentle outgoing nature.

2<sup>nd</sup> Davies **GR CH RAGSHAVEN BUSTERS LEGACY** (66 31a) M 27.03.2005  
A well grown blue point Bi-colour Ragdoll he is 3 years 9 months old. Excellent broad head with flat plane, good width between the bluish grey ears. The ears are well furnished and show the desired slight forward tilt. The body is long and muscular, heavy set with a short strong neck. Medium blue well opened eyes, set wide and slightly oblique in their set. Level bite and firm chin, the nose is medium in length has a gentle dip when viewed in profile, slightly retrousse at the tip. Well developed cheeks and rounded muzzle. The mask has a balanced inverted V of white from the lower forehead down, covering the nose, whisker pads and chin. The remainder of the mask is bluish grey, and is connected to the ears by tracings. Medium length legs and large round tufted paws. The legs are white almost level to the underbody. Bib, chest and underbody white. The fairly well furnished bluish grey tail tapers towards the tip. Well presented predominantly bluish white dense body coat rather on the short side today. Short neck ruff and knickerbockers. Perfect manners to this boy.

3<sup>rd</sup> Fitpatrick's **EMERISLE GYPSOPHILIA** (66 31a) F 23.03.2002  
A 6 year old blue bi-colour female, she has excellent weight, presentation and temperament.

***AC or Pattern Non-Breeders Neuter Male***

1<sup>st</sup> Stone's **DIZZIPAWS JACK** (66 31) MN 09.02.2007

An 11 months old seal bi-colour Ragdoll of excellent type, he is long in the body, well boned and muscular. Broad head with flat plane, medium ears set well part on the head, they show the desired slight forward tilt. Correct slight dip to profile, nose is slightly retrousse at the tip. Level bite and strong chin. The seal brown mask has a balanced inverted 'V' of white starting at the forehead and covering the nose, whisker pads and chin. Expressive medium blue eyes, set wide and slightly oblique in their set. Medium length well boned legs, these are white up to the level of underbody. The body coat is predominately beige, the bib, chest and underbody is white. Well prepared dense beige body coat, medium length neck ruff and knickerbockers. The tail is seal brown, long and busy easily reaching the shoulders. Faultless presentation, a promising young man.

2<sup>nd</sup> Prowting's **PR MIAMORIO ENGLISH GENTLEMAN** (66 31) MN 31.07.2003

A 5 year old seal bi-colour male of good type, he is well boned and muscular. The head is broad with a flat plane. Good width between the seal brown ears, they are medium in size and show the desired slight forward tilt. Medium length nose, slight dip to the profile, nose is rather straight at the tip. Level bite and strong chin. Seal brown mask covering the well developed cheeks. The mask has a balanced inverted 'V' of white starting at the forehead and covering the nose, whisker pads and chin. Well opened medium blue eyes, these are slightly oblique and set well apart. Medium length substantially boned legs, the front legs are white, although there is seal colouring at top of right leg. The back legs are white level to the underbody. Seal coloured long bushy tail, this is slightly tapered towards the tip. Dense soft and well prepared beige body coat. White bib, chest and underbody. Medium length neck ruff and knickerbockers.

3<sup>rd</sup> Woodhead & de Neijs **CLEVERCLOGGS SPIRITDANCERS** (66) MN  
12.07.2007 a 1 year 6 months old seal colourpointed Ragdoll male.

***AC or Pattern Non-Breeders Neuter Female***

1<sup>st</sup> Davies **CH & GR PR SUNNYWOOD NUTMEG** (66e) FN 20.05.2002

A seal tortie Ragdoll lady of quality, she is 6 years 8 months old, and looks stunning today. Long in the body, strong and muscular but retaining femininity. Broad head with flat plane, excellent width between the medium size ears. The ears are well furnished and show the correct forward tilt. Well developed cheeks and rounded muzzle, level bite and firm chin. The mask is seal brown, intermingled with shades of red. Medium length nose, showing the required gentle dip, only slightly retrousse at the tip. Medium length substantially boned legs, points colouring to the legs seal brown clearly intermingled with shades of light and dark red. Fairly well furnished seal brown tail, showing the required

shades of red, easily reaching the shoulders. Tail tapers towards the tip, the tip is seal brown. The beige body coat is dense and feels silky soft. Surface shading across the back and a small dark tummy spot. Full neck ruff and knickerbockers. Expertly presented for the show today, and possessing a delightful show temperament. Lovely exhibit.

2<sup>nd</sup> Harmer **RAGSMITTEN SASKIA** (66) FN 14.04.2007

A 1 year 9 months old seal colourpointed Ragdoll of very good size and type. She is long bodied well boned and muscular. Broad head with flat plane not domed. Medium size ears set well apart, they are well furnished, slightly rounded at the tips and show the desired slight forward tilt. Well developed cheeks and rounded muzzle, level bite the chin is firm. Dense seal brown mask and expressive large medium blue eyes, slightly oblique in their set. The medium length nose has a gentle profile dip, it is not retrousse at the tip. Medium length substantially boned legs, excellent dense seal brown points colouring. Silky textured and dense beige body coat, this is rather dark across the back today. The underbody is a paler beige. Long bushy seal brown tail, slightly tapering towards the tip and showing some surface brindling. Well shown.

3<sup>rd</sup> Bradley's **PR VONVARDA KA CHINA** (66 31a) FN 10.05.2007

2<sup>nd</sup> Lynch's **PR MAGISRAGIS GINGERBREADJIM** (66d) MN 09.10.2005

A 3 year 3 months old red colourpointed Ragdoll of good type. He is long bodied, excellent boning, heavy set and strong broad chest. Medium size well furnished ears, rounded at the tips, showing typical Ragdoll slight forward tilt. Points and mask colouring rather pale for a red of this age. Large well opened pale blue eyes, these are slightly oblique in their set. The mask is pale, it covers the well developed cheeks and the rounded muzzle. Medium length nose showing profile dip, it is slightly retrousse at the tip. Rather an untidy bite, good strong chin. Pale red legs, these are medium in length and of substantial bone. Pale red long bushy tail, this tapers slightly towards the tip and easily reaches the shoulders. The dense body coat is cream, shading lighter cream on belly and chest. Good length neck ruff and knickerbockers. A nicely presented well mannered exhibit.

3<sup>rd</sup> Woodhead & de Neijs **CLEVERCLOGGS DEX DEXTER** (66d) MN 12.07.2007

Another red point 18 months old, very well grown strong body - with good type.
