

Judge Mrs Jane Tackley  
Cambridgeshire Cat Club Saturday 28<sup>th</sup> March 2009

*Thanks to Sally Tokens and the committee for the invitation to judge once again. Nice to see you up and about Sally, although on crutches, hopefully you will soon be more mobile and back to normal. I inherited several open classes due to judge illness, I hope exhibitors were not disappointed with my placings. Jeni Baldwin came along especially to steward for me, we had a very busy but happy day. Thank you for marking my catalogue Jeni.*

***AC Birman Premier Neuter Male***

1<sup>ST</sup> GPC Ensor's PR **KITTAH ODYSSEUS** (13c5) M 25.10.2007

A 1 year 5 months old red point male of very good type, long bodied well grown and muscular - excellent weight and boning. Broad rounded skull, medium size flame red ears set well apart on the head. Required slight dip to the profile, pink nose leather and level bite. Strong rounded muzzle, firm chin and wide rounded cheeks. Full rich red mask, this extending across the whisker pads. Clean white feet, the front gloves are full and matching, on the right glove white travels a little up the outside, behind this glove white travels to the stopper pad but not past. Medium length back socks and long tapering gauntlets reaching to the hocks, the left gauntlet trickles off to the inside. Medium length thick set legs of substantial bone, strong paws. Pale red points colouring, a fraction uneven, which I expect at this age he is still young. Full silky soft pale cream body coat, showing a slight golden hue across the shoulders today. Full neck and chest ruff and clean well groomed underbody. Excellent temperament and very well shown.

2<sup>nd</sup> RGPC Stables PR **RIVANNA CLOUDSHADOW** (13c4) MN 03.11.2005

A 3 years 4 months old well grown and strong boned lilac point Birman of quite good type. Broad rounded skull, neat pinkish grey coloured ears set well apart on the head. Quite a wide medium length nose, in profile showing the required slight dip. Level bite and firm chin, lilac nose leather. Almost round expressive eyes of a clear medium blue. The pinkish grey mask extending across the wide cheeks, a fraction paler across the whisker pads, strong muzzle. The right front glove is lower than the left, back socks are short, the gauntlets reach half way up the back of the legs. All feet nice and white. Medium length thick set legs, pinkish grey points colouring to front legs a little uneven today. Good length pinkish lilac tail to balance his long body, rather sparse today. Full silky soft magnolia body coat, medium length neck and chest ruff. Underbody is clean and well groomed. A gentle giant, faultless show preparation.

***AC Birman Premier Neuter Female - oh I had some lovely ladies in this class***

Leppard's 1<sup>ST</sup> GPC UK **GRCH & IGR PR FANCYTOO GRUOCH** (13c4) FN 29.12.1995

A 13 year old lilac lady of quality, she was long in the body and of good weight, perfect balance. Broad head, medium size lilac coloured ears spaced well part, required slight dip to profile, nose leather is lilac. Level bite and she has all her teeth: excellent

strong rounded muzzle and firm chin. Wide and rounded cheeks, the dense lilac face mask extending across the whisker pads. Expressive eyes a little pale now - almost round but not bold. I just love her expression. Clean white feet, the gloves finish below the angle formed by the paw and leg. Back socks medium in length, the left gauntlet a fraction shorter than the right both taper up the back of the legs. Points a uniform pinkish grey, as was her well furnished tail, this a good length to balance. Expertly presented full length unshaded silky soft magnolia body coat. Full length neck and chest ruff, clear unshaded and well groomed underbody. We were scolded for disturbing her sleep the way only a Birman Lady can, tossing her pretty head at us and huffing! Lovely to see her once again.

2<sup>nd</sup> RGPC Stables **IGR CH & GR PR RIVANNA CHIFFON** (13c13) FN 21.03.1999

Another veteran lady this time a 10 year old chocolate tabby beauty. Broad skull the dark chocolate coloured ears set well apart on the head. Level bite and required slight dip to the profile, nose leather is pink outlined in milk chocolate. Expressive medium blue eyes almost round but not bold. Clear 'M' to the forehead, spotted whisker pads and light coloured spectacles. The wide rounded cheeks are covered by her striking dark chocolate tabby mask. Strong and rounded muzzle. Pure white feet, the front gloves are full and match across the angle formed by the paw. The back socks almost match, tapering gauntlets, the left is slightly longer than the right. Medium length thick set legs and strong paws. Points colouring to the front legs pale chocolate markings on a light bronze agouti ground. Well furnished chocolate coloured tail, this could be a fraction longer for balance. The tail shows several broken rings underneath, tail tip is solid chocolate. Fabulous full length ivory body coat, groomed to perfection. Full neck and chest ruff, clear underbody and slightly curled tummy fur. A little uptight today but Chiffon handled okay.

### ***Seal Point Birman Adult Male***

1<sup>st</sup> CC Caton's **PURINDOORS PICTUREPURFECT** (13c1) M 21.02.2008

A 13 month old seal point male of fair type, he is an excellent size well boned and long in the body, muscular feel. Fairly broad skull, seal brown ears held a little high today. Required slight dip to the profile, level bite and firm chin. There is some pigment loss on lower lips and philtrum, this only apparent whilst checking the bite. Full dense seal brown mask, this extends across the still developing cheeks, the muzzle needing to strengthen. Almost round medium blue eyes, the right eye appears lazy, when out of his pen however all seems well (I did get this confirmed). He is very nervous, but not aggressive. Clean white feet, front gloves low and below the angle formed by the paw and leg. Medium well matched back socks and gauntlets, both gauntlets taper. The seal brown points colouring to the legs a little uneven at present, as to be expected. Medium length pale beige body coat, nicely presented, short neck ruff. Well groomed underbody with some surface shading between the back legs. Well furnished rather brindled pale brown tail, a good length to balance the body. Typical adolescent looking young man, no-where near finished growing yet!

### ***Seal Point Birman Adult Female***

1<sup>st</sup> CC & BoB Leppard's **KLASSYKLOGS KATRIONA** (13c1) F 05.04.2008

An 11 month old seal point female of very good type, well boned and long in the body, good weight and balance for a female of this age. Broad rounded skull, the medium size seal brown ears are set well apart on the head. Required slight dip to the profile, level bite and firm tapering chin. Strong rounded muzzle, the nose leather is seal brown. The cheeks are rounded and well developed, the seal brown mask extends over the wide rounded cheeks, these are still developing. Expressive deep blue almost round eyes, generating typical Birman expression. Full gloves, almost symmetrical across paw line. Medium length matching back socks, full tapering gauntlets finishing just below the hocks. Medium length thick set legs, points colouring to legs seal brown, just a little patchy at present. Good length well furnished rich seal brown tail to balance her body. The body coat is pale beige, this is full soft and silky to the touch. Medium length ruff around the neck and clear well groomed under parts, slightly curled tummy fur. Expertly presented for the show today, a lively lady with plenty to say for herself. Congratulations on attaining Championship status today.

2<sup>nd</sup> Bennett & Norfors **PICNMIX MARIE BELLE** (13c1) F 15.04.2008

Another 11 month old seal point Birman of fair type, she is long in the body but rather fine in bone for the breed. Rounded skull, the medium size seal brown ears are set rather close and today dominate her features. The bite is level, the chin is firm and tapering, seal brown nose leather. Slight dip to the profile, the muzzle is fine and needs to strengthen. Dense seal brown mask, this covers her still developing cheeks. Almost round very expressive eyes of two tone blue, paler blue on the outer rim. Pure white gloves, these finish below the angle formed by the paw and leg but match. The left back sock is higher than the right, good medium length gauntlets, these could be whiter! Medium length fine boned legs showing uniform rich seal brown points colouring. The body coat is pale beige, medium in length it is clean and has been well prepared. Medium length neck ruff and clear unshaded underbody. Well furnished seal brown tail to balance the body. A happy nice natured exhibit.

### ***Red, Cream or Tortie Point Birman Adult Female***

1<sup>st</sup> CC & BoB Ensor's **CH ESAYA KITTAH CASSANDRA** (13c5) F 14.08.2006

A 2 years 7 month old red point female of good type. She is long in the body and well boned. The skull is broad and rounded, medium size rich red medium ears set well part on the head. Expressive almost round two tone blue eyes, the outer rim is pale blue. Required slight dip to the profile, a level bite and firm chin, the nose leather is pink. Full rich red mask extending across the wide and rounded cheeks, strong rounded muzzle. Medium length well boned legs and strong paws. Points colouring to the legs a fairly uniform pale orange. Symmetrical full front gloves, behind the right glove white draws level to the stopper pad. Medium length back socks, the right gauntlet is longer than the left. All paws clean and white. The pale cream body coat is thick and of a good length, heavy shading across the shoulders and back today, still adequate contrasts. Medium length neck and chest ruff, clear unshaded underbody. Bushy flame red medium length tail to balance the body. Excellent temperament even though she was quietly calling.

### ***AC Turkish Van Adult Male***

1<sup>st</sup> CC Lombard's **YENICIZGI IZAMBARD HEDIYE** (13d) M 16.05.2008

A 10 month old auburn Turkish Van male of quite good type, he has a long sturdy body. The head quite a good wedge, the muzzle a little square at present. The medium length nose has a barely perceptible dip when viewed in profile, nose leather is pink. Well feathered ears, they are moderately large, set fairly close together and high on the head. He has a level bite and strong chin. The eyes are amber in colour, more round than oval in shape, very alert and expressive, the rims are pink. The right eye looking rather sore he has been scratched just underneath the eye, and today this is clearly giving him discomfort. I did discuss this with his owner later in the day. Fairly even auburn head markings, these are separated by a vertical white blaze, a small amount of auburn colour trickles up both ears. Auburn colouring does not go below the level of the eyeliners, nor beyond the back of the ears. The well boned legs are medium in length, he has neat tufted feet. Quite a short body coat at present, this is chalk white but would have benefited from more preparation for the show. He has a short neck and chest ruff. Good length well furnished pale auburn tail, there is auburn colour extending from the root of the tail on to the lower back. Much happier being assessed inside his pen, where he purred all the time.

### ***AC Turkish Van Adult Female***

1<sup>st</sup> CC & BoB Dolley's **YENICIZGI TULAY** (13d) F 11.12.2007

A 1 year 3 months old auburn Turkish lady of very good type, she is long in the body and muscular but retaining femininity. The head forms a substantial wedge shape, the medium length nose showing a barely perceptible dip when viewed in profile. Moderately large ears, set fairly close together and placed high on the head, insides of ears are shell pink. She has a level bite and strong chin. The eyes are medium amber in colour, oval in shape, alert and expressive, the eye rims are pink. Generous auburn head markings, these are separated by a vertical white blaze, a small amount of auburn colour trickles up both ears. The rich auburn colouring does not go beyond the back of the ears, a small amount of auburn just past the right eyeliner. The well boned legs are medium in length, neat tufted clean white paws. Good length well furnished rich auburn tail, showing clean colour cut off at the root of tail. Medium length chalk white body coat short neck and chest ruff, clean white underbody. I did not observe any auburn thumbprints on the body. A shy but gentle exhibit, very well presented.

### ***AC Colourpointed or Mitted Ragdoll Adult Male***

1<sup>st</sup> CC & BoB Hamilton's **ADETELO PURRBLUEBUBBLE** (66a) M 02.04.2008

Almost 1 year old a blue colourpointed Ragdoll male of excellent type, large and extremely well grown for his age. Long, strong and muscular body he is an excellent weight, deep chest strong neck. The head is broad with flat plane, not domed. There is good width between the ears, these are medium in size, well furnished and rounded showing the desired slight forward tilt. Well developed cheeks and rounded muzzle, full bluish grey face mask extending across the whisker pads and cheeks. Level bite and firm chin. The nose is medium in length, the profile shows a gentle dip and is slightly retrousse at the tip. Large well opened expressive deep blue eyes, slightly oblique in

their set. Medium length legs of substantial bone, large round well tufted paws. The points colouring to the legs is a uniform greyish blue. Excellent length bluish grey tail bushy tail to balance the body, which he can tense at the tip, when relaxed all is well. Dense silky soft bluish white body coat, full neck ruff and knickerbockers. Clear underbody, excellent presentation by his owner, excellent temperament by the exhibit! I judged this young man as a kitten I liked him then, he is simply stunning now.

***AC Colourpointed or Mitted Ragdoll Adult Female***

1<sup>st</sup> CC Hamilton's **XELALUV PARSHA** (66) F 25.04.2007

Almost 2 year old seal colourpointed Ragdoll lady of good type. She is substantial in weight, long in the body and has very good boning. The broad head has a flat plane, not domed. Excellent width between the medium size rich seal brown ears, these show the typical Ragdoll slight forward tilt. The ears are rounded at the tips and fairly well furnished. The chin is firm, the bite level, nose leather seal brown. Medium nose length, showing a gentle dip when viewed in profile, it is straight at the tip. Large well opened clear medium blue eyes, these are set well apart and they are slightly oblique in their set. Rounded muzzle, I would prefer a little more length, good width to her cheeks. The face mask is seal brown, just a little brindled around the eyes today. Medium length legs of substantial bone, firm and round tufted paws, seal brown points colouring. The body colour is warm beige, silky in texture, and fairly dense it is medium in length. Shading across the shoulders and lower back, still good contrasts. A medium length neck ruff and short knickerbockers. The rich seal brown tail easily reaching to the shoulders, this tapers towards the tip. Quite a wriggler, but gentle in nature, well shown.

2<sup>nd</sup> Wood's **WOODYPAWS FORGET ME NOT** (66at) F 02.07.2007

A 1 year 8 month old blue tabby colourpoint female Ragdoll of quite good type. Well grown, substantial boning and long bodied, reasonable weight. The broad head shows flat plane, there is good width between the ears. I would prefer the ears a little wider at their base. Well developed cheeks the muzzle needs to be more rounded. The chin is firm and the bite is level. Medium length nose, this is slightly retrousse at the tip. The blue tabby mask is full and covers the cheeks. Clear 'M' to forehead, spectacle markings around the eyes and spotted whisker pads. Large well opened eyes of a good blue, set well apart and are slightly oblique in their set. The medium length legs show substantial boning. Large well tufted round paws. The front legs show clearly defined blue tabby markings on a light beige agouti ground. The full length blue tail shows many varied rings, the tail tip is solid blue. Full length bluish white body coat, this is dense and silky in texture. Good length ruff and knickerbockers. Friendly little lady, well presented.

### ***Norwegian Forest Kitten Female***

1<sup>st</sup> BoB Fraser-Smith **NORSKMAGI VENETIA** (67 36) F 24.07.2008

An elegant 8 month old black smoke Norwegian of excellent type, she is strongly built with good bone structure. Triangular head shape, excellent long and straight profile. The forehead is slightly rounded, level bite and strong chin. Well tufted large ears wide at their base, and placed high on the head. Obliquely set oval shaped green eyes, generating an alert expression. Good stance, noticeably higher on the back legs, large well tufted round paws. The tail is long and bushy easily reaching to the shoulders. Venetia has a silvery white undercoat, covered by the black smooth overcoat, guard hairs apparent but feeling soft at present., the texture still developing. Medium length shirtfront and knickerbockers. Excellent show presentation, a most attractive exhibit with show presence, I like her very much.

### ***Blue Point Birman Neuter Female***

1<sup>st</sup> PC & BoB Medlock & Whitworth's **KITTAH ANDROMACHE** (13c2) FN 06.03.2007

A 2 years old blue point female of good Birman type. Well boned and long in the body, muscular and of a good weight. Broad skull, the medium size blue-grey ears are set well apart on the head. Required slight dip to the profile, level bite and firm tapering chin. The nose leather is slate grey, the muzzle is strong and rounded. Excellent wide rounded cheeks, these are covered by the pale blue-grey mask, just a little brindled today around the eyes and whisker pads. Almost round but not bold deep blue expressive eyes. Full clean white gloves, even across paw line, white travels up the outside of right glove. Good back socks, full tapering gauntlets finishing just below the hocks. On the top of left gauntlet white hooks towards the inside. Medium length thick set legs, points colouring to legs a uniform powder blue. Medium length well furnished blue-grey tail balances the body. Medium length bluish white body coat, soft and silky to the touch. Medium length neck and chest ruff, clear unshaded underbody. A well presented gentle natured exhibit.

### ***AC Colourpointed or Mitted Ragdoll Neuter Male***

1<sup>st</sup> PC & BoB Passfield-Taylor's **HAZELDOLLS PYEWACKETT** (66tw) MN 02.04.2008

Almost 1 year old, a seal tabby mitted Ragdoll of quality, long in the body muscular with a broad chest and short strong neck. Broad head with flat plane, good width between the medium size ears. The seal brown ears are well furnished and rounded at the tips, showing the desired slight forward tilt. Large well opened eyes, set well apart of a clear medium blue. The eyes are slightly oblique in set. Strong rounded muzzle, level bite and firm chin. Clear 'M' to the forehead, the seal brown tabby mask covers the well developed cheeks. The nose is medium in length has a gentle dip to the profile and is almost straight at the tip. Strong medium length legs, front legs showing clearly defined seal tabby markings on a pale brown agouti ground. Long bushy seal brown tail, showing several varied rings underneath, the tail tip is solid seal brown. The silky and dense beige body coat is medium in length, medium length neck ruff and knickerbockers. White mittens and white back legs up to level of underbody. White chin, chest and underbody. Excellent show preparation and delightful friendly temperament.

***AC Bi-Colour Ragdoll Neuter***

1<sup>st</sup> PC & BoB Doran's **ADORING SIR JASPURR** (66 31) MN 04.03.2008

A 1 year old seal bicolour young man of excellent type size and boning, muscular body and heavy in set. Broad head with flat plane, not domed. Rich seal brown well furnished medium size ears showing the desired slight forward tilt. Well developed cheeks and a rounded well developed muzzle. Level bite and strong chin, gentle dip to the profile, the nose is slightly retrousse at the tip. The seal brown mask has a balanced inverted 'V' of white from the forehead extending down the nose, whisker pads and chin. Medium length white legs of substantial bone, strong paws. The back legs are white to the level of the underbody. The bib chest and entire underbody are white. Predominately beige body coat with some random patches of white, all clean well prepared. Good length tapering seal brown tail to balance. Striking exhibit with excellent contrasts. Reluctant to be judged at first, but we had a chat and eventually he allowed us to assess him.

***AV Breeders Adult Female - always a tough class***

1<sup>st</sup> Mott's **JANDOUGLEN SEILEACH** (13c13) F 14.03.2006

A 3 year old chocolate tabby point female Birman of very good type, she is long bodied, well grown and of good balance for her age. Broad and rounded skull, medium milk chocolate coloured ears, set well apart on the head. Medium length nose, in profile showing the desired slight dip. The muzzle is strong and rounded, level bite and firm chin. Milk chocolate tabby markings to the mask, which is extended across her wide still developing cheeks. The mask shows a clear 'M' to the forehead, light coloured spectacle markings surround her expressive eyes and spotted whisker pads. Excellent deep blue almost round eyes. Pure white feet, the front gloves full and almost symmetrical. Medium length back socks, full tapering gauntlets the left gauntlet is slightly longer. Medium length thick set legs, points colouring to the front legs pale chocolate tabby markings on a light bronze agouti ground. Good length pale chocolate tail to balance the body, this has several tabby markings underneath the tail tip is pale chocolate. Good length ivory body coat, silky soft and well prepared, feminine neck and chest ruff and clear well groomed underbody. She has a delightful loving nature and clearly enjoys being shown. Well done, a very nice exhibit.

2<sup>nd</sup> Skinner'S **TANZACoon TABBY ROAD** (64 41d) F 26.06.2008

A 9 months old red classic tabby Maine Coon a golden eyed beauty of very good type. She is long bodied with proportionate limbs, creating the characteristic rectangular appearance. Medium length head excellent square muzzle, level bite and firm chin. Large tall well tufted ears, they are placed high on the head. Fairly full cheeks and high cheek bones. Medium length nose, the profile shows a shallow concave curve at the nasal bridge. Wide spaced full and round golden coloured eyes, set in a slightly oblique aperture. Legs of substantial boning, well tufted large paws. Long profuse and flowing tail wide at the base, and tapering towards the tip. Reaches shoulders. Attractive red butterfly to the shoulders. Substantial glossy body coat, showing rich red markings on a bright apricot agouti ground. Medium length shaggy frontal ruff and breeches. Another promising exhibit beautifully presented, excellent show temperament.

3<sup>rd</sup> Stantons **CH RAGADDICT MIAMORIO** (66 31) F 02.10.2007

A 1 year 5 month old seal bi-colour Ragdoll of very good type. Well boned and of a good weight, expressive deep blue eyes. Excellent presentation and possessing a gentle loving temperament.

What a class!

***AV Limit Adult***

1<sup>st</sup> Mott's **CAMULODUNUM JANDOUGLEN BEN** (13c12) M 12.06.2008

A 9 month old blue tabby Birman of very good type, he is long bodied well boned and muscular. Broad rounded skull, medium ears set well apart on the head. Strong rounded muzzle, level bite and firm chin. Required slight dip to the profile. Almost round but not bold eyes of an excellent blue. Full mask extending across the wide but still developing cheeks, clear 'M' to the forehead, light coloured spectacle markings around the eyes and spotted whisker pads. The front gloves are symmetrical and finish across the angle formed by the paw and leg. Medium length back socks and tapering gauntlets, these finish half way up the back of the legs. Medium length legs of substantial boning, grey-blue points colouring to the legs. The front legs showing blue markings on a light beige agouti background. Well furnished blue-grey tail to balance the body, blue tabby markings underneath the tail apparent, the tail tip is blue-grey. Bluish white body coat, silky soft in texture and medium in length, full neck and chest ruff. Clear well groomed underbody - an impressive young man of very good balance for 9 months old. Expert show preparation the white feet just sparkled!
